Selection Process:

On the 1st of October, each partner selects the best 3 photos from their countries. With 3 photos per country (Spain, Romania, Estonia) we will have 9 photos in total.

Those 9 photos will then be posted on the social media accounts of the organizations (Facebook & Instagram). In these posts there will be a link to a google form. On this form the 9 photos will be presented only with their explanation (no name, no country).

Our followers can then vote and select their 3 favorite photos out of those 9. The 3 winning photos determined by the number of votes in the google form.

Criteria of selection:

You might be wondering how will we be selecting the 9 photos for the final vote. There are multiple different things that will be taken into account to determine the finalists.

- Originality: How original and creative your photo is. Does it stand out, out of all the photos? Is there something special/different about it?
- Quality: We need to see that you took the care to present your photo in the best quality possible.
- Connection to the thema: How well is this photo connected to how you see Europe and your life in Europe in the future. This is a very vague title - anything can be an answer here and we want you to let your creativity run free but we need to see the connection to the theme.
